

U SAI CHARAN

+91 7093600312 | saicharanyadav211981@gmail.com | Hyderabad, Telangana | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Programmer Analyst with hands-on experience building fast, accessible web applications. Strong foundation in JavaScript and TypeScript with good exposure to Angular ecosystem (RxJS, NgRx). Delivered pixel-perfect UIs aligned to Figma designs, integrated RESTful APIs in collaboration with backend teams, and implemented lazy-loading modular architectures to improve startup time and performance. Passionate about clean code, testing, and continuous learning; comfortable working in agile teams to ship reliable features. Additionally, I bring a creative vibe coding approach and have foundational experience in Prompt Engineering.

PROFESSIONAL EXPERIENCE

Programmer Analyst | Cognizant | Hyderabad, Telangana | Dec 2023 – Present

- Develop web applications using Angular; built 15+ responsive pages aligned with Figma designs.
- Collaborate with backend teams to integrate RESTful APIs and troubleshoot end-to-end flows.
- Implement NgRx for scalable state management and leverage RxJS to simplify asynchronous patterns.
- Reduced initial load time by 30% with lazy loading modular architecture hence improved performance.
- Write optimized, maintainable code; participate in reviews and team collaborations.

Programmer Analyst Trainee (Internship) | Cognizant | Hyderabad, Telangana | Oct 2023 – Dec 2023

- Completed intensive training in MEAN stack fundamentals.
- Built proof-of-concept components and practiced API integration and state management basics.

PROJECTS

Student Scholarship Portal | MEAN stack (MongoDB, Angular, Express.js, Node.js) - [GitHub](#)

- Built a portal for students to apply for scholarships with admin workflows to approve/reject requests.
- Implemented status tracking for applications and built responsive UI components in Angular.

E-Commerce Website | Angular (Frontend) + Spring Boot (Backend) - [GitHub](#)

- Implemented customer cart and order placement features; built seller product CRUD (add, update, delete).
- Added JWT-based authentication and documented REST APIs using Swagger.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, Angular, NgRx

Backend: Node.js, Express.js, Java, JWT, Postman

Databases: SQL, MongoDB

DevOps/Tools: Git, GitHub, GitLab, Jira, Jenkins, Swagger, GitHub-Copilot

EDUCATION

Bachelor of Engineering (Electronics & Communications Engineering) | Matrusri Engineering College

-Aug 2019 – Jun 2023 | CGPA: 7.66

CERTIFICATIONS

NSIC – AWS | Spoken Tutorial – Python | Arduino | Udemy – JavaScript, Angular, Java & Spring Boot
